137 Jewelers and Fancy Store-keepers should call at 438 Broadway, and see two silver counter cases. They are each 23 feet long and 33 inches deep, showing a splendid surface of silver and glass. They are probably the richest and largest cases in the world, and were made for Messre Balley's & Co's large establishment in Philadelphia, and are from the manufactory of Cooney & Asberton, 55 Mercer-st. They will be shipped to-morrow (Tuesday) morning. (Tuesday) morning.

On the opposite side of the wharf life, the Atlantic, 2.800 to 3,000 tons burden, one of Collins line. None of her machinery is yet on board. The Novelty Works and Secor & Co.'s large establishment, which we next visited, are signs of the times, which machinists, chipsmiths, engineers, ship-carpenters, and workers in iron and steel in general, when they come to New-York should not fall to observe. Amid the din of hammers, rasps, files, saws, and machinery, they will find much asps, files, saws, and machinery, they will find mucital invested and the enterprise and judgment displayed in such establishments, become sources of profit to their owners, yielding at the same time a liberal re-ward to all under them for their skill and labor.

FROM BUENOS ATRES.—By the arrival of the Norwegian bark Orion, Capt Matterson, 43 days from Buenos Ayres, we have received copies of the June. The Packet of the With of May says: On the 24th inst., in pursuance of orders previously given by Government, the battery "Libertad" fired a salute in honor of the Queen's birth-day—the first demonstration of the kind since the intervention. H. M's. steamer Harpy acknowledged the compliment, with the Argen-tice flag at the fore.

Martin T. Hood, Esq. the newly-appointed British Consul for Suenos Ayres, arrived at that port on the 25d of May. He was recognized and entered upon 25d of May. He was recognized and entered upon the duties of his office on the 26th of the same month. The Fecks of the 2d of June says: 'The projected armistice we alluded to in our last was established on the 24th uit. at 3 P.M. The status que is to be pre-served by both parties, and hostilities cannot be re-newed without 24 hours' notice. The nominal French blockade of the Oriental ports was raised simultane-ously with the establishment of the armistice. A few days previous Leprédour, the French Admiral, commanding the Brazil and La Plata stations, ad-dressed a proclamation to his countrymon, adjuring them to keep quiet, and await with patience the pleas

dressed a proclamation to his countrymen, abjuring them to keep quiet, and await with patience the pleasure of France in regard to those projects of treaties acready sent forward and concluding as follows:

We are on the eve of an epoch of peace which will indemnify for all the privations which have been entuined upon you by war during so many years. We shall arrive at that honorable termination, and without commotions, if each of you will, in return for the interest I profess for you, accord to me a little confidence.

Do not sever the bonds which have so long united ou with the officers and seamen of the squadron; and will be very easy for you to thwart all the endexyors sat malevolence may exert to prevent the accomplish-est of a peace which France desires, and which our olfare imperiously demands.

wolfare imperiously demands.

Shortly after the suspension of arms took place, Admiral L. dispatched for France four vessels of his squadron, viz: Frigate Erigone, brig Tactique, and steamers Chimére and Grandeur, H. M.'s steamer Lizard sailing for England at the same time.

It is understood that Admiral Lepredour has agreed with President Oribe upon the terms of an armistics with Montevideo.
